BELLIGERENT RIGHTS

Congress Asks That It Be Extended to Cubans.

ALMOST A POINT OF RECOGNITION

Majority Report of the Foreign Relations Committee Asks President Cleveland to Use His Good Offices to Secure Rights of War For the Island by Interceding With the Spanish Government.

WASHINGTON, Jan. 30.—The presentation of committed reports on Cuba and a highly dramatic and sensational speech of Mr. Tillman, the new senator from South Carolina, furnished two stirring events in the senate yesterday. The majority resolution on Cuba asks the president to urge Spain to grant belligerent rights to the insurgents, while the minority report directs the president to take steps toward securing from Spain the complete independence of Cuba. Both resolutions went to the senate calendar.

The resolution was as follows:

"Resolved by the senate (the house of representatives concurring), That the present deplorable war in the island of Cuba has reached a magnitude that concerns all civilized nations to the extent that it should be conducted, if, unhappily, it is longer to continue, on those principles and laws of warfare that are acknowledged to be obligatory on civilized nations when engaged in open hostilities, including the treatment of captives who are enlisted in either army, due respect to cartels for exchange for prisoners and for other military purposes, truces and flags of truce; the provision of proper hospitals and hospital supplies, and services to the sick and wounded of either army; be it further

"Resolved, That this representation of the views and opinions of congress be sent to the president, and if he concurs therein that he will, in a friendly spirit, use the good offices of this government to the end Spain shall be requested to accord to the armes with which it is engaged in war, the rights of belligerents as the same are recognized under the laws of nations."

The resolutions were accompanied by a comprehensive report. Among other things the committee says:

"The congress of the United States, deeply regretting the unhappy state of hostilities existing in Cuba, which has again been the result of the demand of a large number of the native population of that island for its independence, in a spirit of respect and regard for the welfare of both countries, earnestly desires that the security of life and property, and the establishment of a permanent policy and of a government that is satisfactory to the people of Cuba should be accomplished.

"And to the extent that the people of Cuba are seeking the rights of local self-government for domestic purposes, the congress of the United States expresses its earnest sympathy with them. The congress would also welcome with satisfaction the concession by Spain of complete sovereignty to the people of that island, and would cheerfully give to such a voluntary concession the cordial support of the United States. The near proximity of Cuba to the frontier of the United States, and the fact that it is universally regarded as a part of the continental system of American, identifies that island so closely with the political and commercial welfare of our people that congress can not be indifferent to the fact that civil war is flagrant among the people of Cuba.

"Nor can we longer overlook the fact that the destructive character of this war is doing serious harm to the rights and interests of our people on the island and to our lawful commerce, the protection and freedom of which are safeguarded by treaty obligations."

The committee emphasizes the fact that the United States, in the various struggles between Cuba and Spain, has always observed in perfect faith all of its duties toward the belligerents.

The hospitality which our treaties, the laws of nations and of Christianity have extended to Cuban refugees has caused, the committee adds, distrust by the Spanish government as to the fidelity of the United States government to its obligations of neutrality. This distrust has become a source of serious annoyance to our people and has led to a spirit of retaliation toward Spanish authority in Cuba.

Mr. Gary (Dem., Del.) also from the committee on foreign relations, reported back the resolution introduced on the 21st inst. by Mr. Call (Dem., Fla.) with an amendment striking out the sentence requiring the president to demand the immediate release of Mark E. Rodriguez and Louis Sommerman and his son, American citizens arrested in Havana. The resolution simply requests the president to report the facts as to such arrests. The resolution was placed on the calendar.

The rest of the time of the senate was occupied by Mr. Tillman of South Carolina on the financial question.

No Quorum in the House.

WASHINGTON, Jan. 30.—The session of the house was brief. The opposition to a bill reported from the invalid pensions committee to amend the act of 1890, so that in the consideration of widows' claims unexplained absence for seven years should be considered sufficient proof of death, led to the making of the point of no quorum early in the session, and the house was forced to adjourn.

That when meat is hanging, to change its position frequently to equally distribute its juices.

MAXIMO GOMEZ DEAD.
Such a Rumor Reported in Havana, but Is Not Credited.

HAVANA, Jan. 30.—There is an insistent rumor here that Maximo Gomez has died as a result of his illness. The friends of the insurgents place no credence in the rumor and there is no confirmation of the report. It probably owes its origin to the fact that the insurgents tried to buy a coffin at San Antonio de Los Baños, and the conclusion that it was intended for the burial of the leader of the Cuban insurrection has been jumped at.

An engagement of some importance has undoubtedly taken place between Gomez' forces and the pursuing columns of the Spaniards at the plantation of Santa Lucia. The official report makes no statement of the result of the fight beyond asserting that the insurgents lost 21 killed and 90 wounded. The Spanish losses are not stated.

Yesterday the column commanded by Colonel Vicuna encountered 25 insurgents upon the plantation of Europe in Matanzas. They pursued these, who proved to be the vanguard of a larger force, and met 800 insurgents at the farm of Hato Manjari. Firing was continued for half an hour, when the insurgents retreated, leaving three killed and 11 wounded, together with some arms. On the side of the troops Major Perez Roy was seriously wounded.

Colonel Vicuna has stationed his forces in Rabes, which commands the only pass to the province of Havana and the westward. The insurgents are striving to effect a passage to join Gomez and Maco, but have not succeeded in doing so.

General Marin and Colonel Inclan, the mayor, and the chief of staff, bade farewell yesterday to 500 Havana volunteers who are departing to take part in the campaign.

The insurgent leader, Pancho Carillo, has arrived in Puerto Principe province in response to orders received from General Gomez.

The insurgent leader, Fernando Espinosa, has died from wounds received at Rio Grande in December.

THE ST. PAUL STILL STICKS.

Possibility That the Vessel May Remain There Until Spring.

NEW YORK, Jan. 30.—An unsuccessful attempt was made this morning to float the stranded steamer St. Paul. Five tugs were engaged in the effort. The steamship is said to have been moved slightly, but her position is not materially changed.

The work of discharging the St. Paul's cargo will be completed soon, and if the conditions at the next high tide warrant it another effort will be made to pull the steamship out of the sand. The sand has banked up against the port or seaward side, and as each day adds to the mound, it will require a strong sea to move it. If an on-shore wind should blow up with a moderate sea this sand would be moved.

The experience of the Amerique of the French line, which was ashore at the same place in a much more dangerous position for three months and was then floated in a high spring tide with little difficulty, is referred to by the wreckers as an evidence that the St. Paul is likely to be taken off the shore in safety. Other vessels have been high and dry on the New Jersey coast and have been gotten off after a time. Some of the agents of the other lines think the St. Paul will not be moved until the high spring tides come in March.

SEVERAL PEOPLE BADLY HURT.

Wedding Ceremony Interrupted by the Floor Giving Way.

SANDUSKY, O., Jan. 30.—One hundred and fifty guests had assembled at the home of Albert H. Baker near this city last night to attend the wedding of Baker's daughter. Just as the ceremony was about to begin the floor suddenly gave way, precipitating about 75 people into the cellar, a distance of 10 feet.

Fortunately the lamp was extinguished, but candles set fire to the clothing of some of the women and a panic ensued. The people were piled four and five deep and it was some time before the fire was extinguished and the guests extricated from the cellar. Mrs. H. N. Norton was fatally injured and William Arnold and William Starr were badly hurt, while many others received less serious injuries.

WHERE IS IRA C. FARLEY?

A Young Man Mysteriously Missing From His Home in Cleveland.

CLEVELAND, Jan. 30.—Ira C. Farley, a young adjutant in the Fifth regiment, Ohio national guard, disappeared last week and subsequent investigation showed that he had had trouble with his business partners, and had probably gone to enlist for the Cuban war.

The only thing he took from home was his lieutenant's commission and he had often expressed a longing to join the Cubans, besides which he bought a railroad ticket for Philadelphia, where the main insurgent recruiting office is located. He must have reached Philadelphia just in time to embark on the ill-fated steamer Hawkins with other filibusters and his family, not hearing from him, fear that he was among the drowned.

BUENOS AIRES, Jan. 30.—Rio Janeiro advises that a physician of that city declares that he has found a cure which is almost certain in its effects in yellow fever. The physician's new remedy consists of the internal use of doses of the extract of eucalyptus. The extract has been tried in the hospitals in Rio Janeiro with astonishing results.

MINERS' SCREEN LAW

Part of It Is Held to Be Unconstitutional.

DECISION OF THE SUPREME COURT

The Court Holds That It Is Impossible to Convict Under Section Five of the Act. Liquor CasesAppealed—The Amish Cases Settled—Farmer Fatally Hurt. Other Indiana State News.

INDIANAPOLIS, Jan. 30.—The supreme court yesterday, without passing upon the constitutionality of the miners' screen law, passed by the legislature of 1891, decided that it is not possible to secure a conviction under Section 5 of the act, which follows:

"That all coal mined in this state, under contract for payment by the ton, shall be weighed before being screened, and the full weight thereof shall be credited to the miner of such coal, and 80 pounds of such coal as mined shall constitute a bushel, and 2,000 pounds of coal as mined shall constitute a ton; provided that nothing in this act shall be construed as to compel payment for sulphur, rock, slate, black jack or other impurities which may be loaded with or amongst the coal."

Joseph Martin, superintendent of mine No. 8 of the Parke County Coal company, was arrested and fined \$100 for violation of the section. He refused to credit William Cherry, a miner, with the full weight of coal before it had been screened.

Judge McCabe, who wrote the opinion, shows that, according to the state's own evidence, the section is impossible of execution, because, as proved by the state, the coal in controversy contained "sulphur, slate, black jack and other impurities."

The court points out that the principal witness for the state testified that the only way to separate the sulphur, slate, black jack, dirt and other impurities from the fine coal or slack is to separate the lump coal from the slack. That part that does not pass through the screens is called lump coal, and is the coal of commerce; that part that passes through the screen is called slack, and composed of fine coal mixed with sulphur, slate, black jack and other impurities.

The court says that while Section No. 5 imperatively requires the coal to be weighed before it is screened and the full weight credited to the miner, yet the proviso of the section qualifies the requirement by providing: "That nothing in this act shall be so construed as to compel payment for sulphur, rock, slate, black jack and other impurities."

It is held by the court that the conclusion is irresistible that the only way possible to avoid paying for mining the impurities was by screening before weighing the coal, and even then some impurities would be paid for.

The court says the proviso of the section imperatively requires the statute to be so construed as not to compel payment for such impurities, as it requires any coal mined to be weighed before it is screened.

It is held that the conviction of the mine superintendent was contrary to the law and the evidence.

AMISH CASES SETTLED.

The Lowest Fine Possible Imposed Upon the Prisoners.

DECATUR, Ind., Jan. 30.—Judge Heller has handed down his decisions in the Amish cases. Jacob Schwartz was found guilty of marrying cousins and solemnizing marriage without license and fined five dollars for each offense. David Swartz was found guilty on two indictments for marrying cousins without license and fined five dollars for each offense.

There was a great surprise in court when the attorney for the defendants announced that the remaining preachers charged with violating marriage laws would plead guilty and throw themselves on the mercy of the court. Judge Heller was very lenient with them, assessing the lowest possible fine of \$5 for each offense. Those fined are Jacob Swartz, David Swartz and Christian Swartz, all deacons of the church.

A Romantic Wedding.

MUNCIE, Ind., Jan. 30.—Miss Maggie Spencer of Marion, employed in a glass factory as a packer, slipped a note into a jar, giving a description of herself, and slyly intimating that she was not averse to a matrimonial alliance if a worthy man presented himself. This jar passed to the possession of J. E. Bingman of Celina, O., who found it among his stock of goods. He was a well-to-do widower, 86 years old, while the lady was not 20. Nevertheless, he hastened to Marion, and, as a result, there was a wedding, in which both principals were mutually pleased.

Liquor Cases Adjudicated.

SHELBYVILLE, Ind., Jan. 30.—More history was made yesterday in the liquor cases. Oscar Williams, charged with selling liquor on Sunday, the case being worked up by Detectives Simpson and Weirick, was found guilty by Squire Kenton, who assessed fines and costs aggregating \$72. Two cases were tried before Mayor Enos, the defendants being Robert Whittaker and Herbert Springer, and fines were assessed in each case. In none of the cases tried during the day was testimony introduced by defendants, all of whom took appeals to the circuit court.

A Live Wire Makes Mischief.

MARTINSVILLE, Ind., Jan. 30.—Fire broke out in the large show window of O. C. Toner's dry goods store at 7

o'clock Tuesday evening, a very few minutes after the last clerk had left the room. One of the heavy plate glass windows in the door was smashed, and by the prompt response of the fire department a disastrous fire was averted. Smoke was quite dense, however, in the main room, and the damage may reach several hundred dollars. The fire is thought to have originated from a live wire. Both the building and stock are insured.

Fatally Hurt in a Runaway.

FOWLER, Ind., Jan. 30.—While Alexander Buck, a well-to-do farmer, living at Montmorenci, was gathering corn, his team ran away, throwing him out of his wagon and under the wheels. He was able to pick himself up and go home, but he was fatally injured internally, and has since died.

TREACHERY CHARGED.

The Filibustering Steamer May Have Been Scuttled.

NEW YORK, Jan. 30.—An air of gloom pervades the headquarters of the Cuban revolutionary party in this city, and the leaders, who would not admit at first that there had been any filibustering expedition which had met with disaster, finally admit that the story of the wreck of the steamer J. W. Hawkins was correct.

T. E. Palma, who is the acknowledged head of the Cuban revolutionary party in New York, said that the story was undoubtedly true, but he claimed that the amount of money expended in the expedition had been exaggerated and that only about \$100,000 had been expended in fitting out the steamer J. W. Hawkins, including arms and ammunition.

One of the Cuban leaders made the startling announcement that it was evident there had been treachery in the camp of the filibustering party. "You see," said he, "we hired an expert in this city to go to Baltimore to examine the steamer J. W. Hawkins before we purchased her. This expert reported that the steamer was seaworthy. Now, either the expert did not do his duty properly and the steamer was not fit to go to sea, or else there was a traitor on board who deliberately scuttled the ship. The latter would seem to be the case.

"Neither General Garcia, who was in command of the expedition, nor his son, who was second in command, nor any of the others at the head of the movement had any idea whatever that the steamer was leaking until it was too late to save her. After leaving this city on Saturday night all went well, apparently, until Sunday night, when one of the filibusters happened to go down to the engine room and saw the water rushing in. He at once notified General Garcia and some of the party were set to work to assist the crew at the pumps, but it was too late. A most searching investigation is being made, and if there was any plot to scuttle the ship we will unearthen it."

HEAD-END COLLISION.

Train Crew and Conductor Hurt, but the Passengers Escaped.

BRADFORD, Pa., Jan. 30.—Passenger train No. 8, on the Buffalo, Rochester and Pittsburg railroad, collided with a southbound freight train at Whistle-town, five miles north of Ridgeway at 4 o'clock yesterday afternoon. Train No. 8 had orders for a free track, but the other train was unable to make a siding in time to allow it to pass, and the result was a head-end collision which smashed both locomotives and piled up the cars in a bad shape.

Conductor Isaac Kissel of this place was badly injured and the other trainmen were also hurt more or less seriously, but there were no fatalities. The passengers on train No. 8 were more fortunate. While they were all shaken up violently by the shock, they escaped serious injuries. That there was no loss of life is marvelous.

CADET CRACY CAUGHT IN COGS. His Leg Broken in Two Places While on the Steamship St. Louis.

NEW YORK, Jan. 30.—A United States cadet, George Cracy, assigned to the American line steamship St. Louis, was caught by the right leg yesterday in the cogs of a big wheel in the St. Louis' engine room. The leg was broken in two places.

Under the mail subsidy act under which the St. Louis and St. Paul became auxiliary cruisers of the United States navy, it is necessary that each vessel carry a naval cadet for each 1,000 tons. Cracy was one of the 12 cadets on the St. Louis and while in the engine room yesterday he got caught in the cogs, and was just saved from immediate death by two of his comrades. The leg may have to be amputated. Three minutes before the vessel left port another cadet was assigned and sailed in Cracy's stead.

Explosion in a Mine.

WILKESBARRE, Pa., Jan. 30.—An explosion of gas occurred in the Twin Shaft at Pittston yesterday. It was at first reported that several men had been killed, but this proved to be erroneous. The miners at work in the vicinity were thrown about by the concussion, but Anthony Kane and John Connors were the only ones injured. They were burned about the face and hands. The mine was only slightly damaged.

Monotony Not Broken.

FRANKFORT, Ky., Jan. 30.—The joint assembly went through the monotonous joint ballot for senator at noon. The vote stood: Hunter, 66; Blackburn, 57;

Buckner, 9; Brown, 1; Wilson, 1. Total, 184. Necessary to a choice, 68. Poor again voted for Brown.

HELPED A FRIEND,
But He Perjured Himself and Now
Has to Pay the Penalty.

[Exchange.]

Bruce Marcum, of Jackson, Breathitt County, has been sentenced to the penitentiary for one year from Wolfe County. The crime for which young Marcum must suffer was a very singular one, indeed, and the records of the courts of the Commonwealth will doubtless show very few similar instances. During the summer of 1895 Miss Ella Short and A. J. Johnson, who were bent on matrimony, were having a difficult time of it, since the father of the bride opposed them, and license could not be obtained in Breathitt County, as the bride was not yet of age.

Bruce Marcum, among other young men, was very much in sympathy with Johnson and his troubles, and volunteered his services to go over to Wolfe County to see if the license could not be obtained there. He succeeded in obtaining the license from the Clerk of the Wolfe County Court, under which the young couple were soon made man and wife.

Most people thought this would be the end of the little love affair, but the bride's father was obdurate, and never forgave young Marcum for the active part he took in securing the marriage of his daughter without his consent. Moreover, it was mainly through his instrumentality that young Marcum was indicted for fraudulently obtaining the license, and is now sent to reap the rewards.

Young Marcum is well connected in Breathitt County, being the son of Capt. Ned Marcum, ex-County Clerk, and a prominent man in political and Grand Army circles, and a nephew of Hon. J. B. Marcum, one of the leading attorneys at the Jackson bar. Great sympathy is expressed for the unfortunate young man, who, it is thought, did not properly estimate the enormity of his crime, and was only seeking to help a friend out of trouble.

Nearly 3,000,000 bushels of coal came out of the Kanawha on the present rise. About 7,000,000 bushels from Pittsburg.

The Hog Market.

Chicago Breeders' Gazette: "Five dollar hogs is now the talk at the Chicago yards. A 'bull' campaign in pork has been inaugurated and the people at the yards, having largely overestimated supplies for some weeks, are now beginning to admit that some other cause than bad roads is responsible for lessened receipts. Commission men who have been out in the country report the supply short, and some of those who keep run of the trade predict that hogs will bring \$5 before the end of March."

SAME OLD STORY,

Concerning the Joint Ballot for Senator—Doings of the General Assembly.

Senator Blackburn's successor has not been elected yet, and is not apt to be until after February 6th. The joint ballot yesterday resulted: Hunter 66, Blackburn 57, Buckner 9, Willson 1, Brown 1.

The vote for Librarian again resulted in a tie. Mrs. Shelton, Republican, received 67, and Miss Guy, Democrat, 67.

There is a move among Democrats to work up a boom for ex-Gov. Brown. Populist Poor has voted for him twice now and has let it be known that Brown can win, if the Democrats will unite on him.

After the joint session the House spent two hours in Committee of the Whole considering the Hiles educational bill, requiring parents and guardians to send children to school at least twelve weeks in the year, eight of them consecutively. The bill is supported by nearly all the Republicans, and opposed by nearly all the Democrats, except its author, Mr. Hiles. It will be pushed to a vote to-day, probably. Thomas (Rep.), of Trigg, offered an amendment to the Hiles bill providing that colored children shall not be permitted to attend white schools and white children shall not be permitted to attend colored schools, which was adopted.

Thompson, of Louisville, introduced a resolution calling on the banks which have been acting as State depositaries, for a statement, in full, of interest accruing on funds now in their possession and how and where payments have been made to the State heretofore, which was adopted.

Thompson, of Calloway, presented a petition from his constituents remonstrating against the passage of a bill to prohibit the killing of quail in the State for the next two years.

The Committee on Education reported favorably the bill requiring school teachers to attend "County Institutes," and also requiring the teachers so attending to continue their terms for as many days as are so lost.

The Committee on Revenue and Taxation reported a substitute for the bill abolishing the State Equalization Board, which abolishes the present board and creates a new board.

The Governor sent to the Senate the nomination of John L. Chilton to be Commissioner of the Central Asylum, Lakeland, and he was confirmed.

The Committee on Municipalities adversely reported Hissem's bill to compel street-car corporations to equip electric cars with screens for the comfort of motormen.

A bill is pending to prevent the employment of child labor, the prohibited age being from fourteen to sixteen years. Also a bill to compel employers to pay their laborers, where six or more are employed, on Saturday nights. The penalty is a fine of from \$5 to \$25 for each offense.

Senator Noel's bill making prize-fighting a felony and punishable by confinement in the penitentiary from one to five years was given its third reading and passed by a vote of 25 to 7. Mr. Weissinger, of Louisville, said he was opposed to prize-fighting, but he thought that a jail sentence was sufficient for amateurs who engaged in fighting. Several others opposed the bill on that ground exclusively.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them is ambitious, brainy and energetic; the other sick, listless, feverish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eating, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-ninths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, wind belchings, heartburn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are not violent in action.

FRANK GREGSTON pleaded guilty in the Police Court to a charge of breach of the peace, and was fined \$5 and costs.

THE FRIENDS of Mr. H. P. Lewis will regret to learn that there is no improvement in his condition. He has been ill several weeks.

IN THE CASE of Chamberlain against Baldwin, taken up from this county, the Appellate Court has dismissed the appeal, with damages.

THE TAX SUPERVISORS of Boyd County raised the assessment over \$100,000 and listed \$61,815 worth of property that had been omitted by the Assessor.

MRS. MARIA HURDY, aged forty-two years, died January 28th near Paris. Mr. Will Niland, formerly of this city, wedded one of her daughters a few days ago.

THE COURT OF APPEALS in a recent decision says that in towns and cities the duty of a railroad company to provide a water closet is imperative, under the law.

THE MILLION-KENDALL tobacco factory building at Flemingsburg has been transferred to Captain W. G. Deering for \$200. It cost \$3,000 or \$4,000 a few years ago.

REV. J. J. DICKEY will be the President of the Methodist College now being erected at London. It is said that he is collecting material for a history of Eastern Kentucky.

SAMUEL DARRELL, aged only twelve, was jailed at Vanceburg on charge of stealing a gold watch, several gold rings and a diamond bracelet. He's a good subject for a reform school.

THE MOREHEAD LEADER is of the opinion that the railroad from West Liberty to Maysville via Flemingsburg is a sure go, and thinks that three hundred men will shortly be at work on the road.

THE BOARD OF TAX SUPERVISORS of Scott County increased the assessment \$246,900 and assessed the capital stock of turnpikes at \$94,000. There was omitted by the Assessor \$7,300. Total increase, \$348,200.

JOHN BOOTH, aged twenty-seven, a young farmer living four miles south of Augusta, committed suicide early Tuesday morning by shooting himself through the heart. He had been in town the day before on a big drunk and was fined \$5 and costs in the Police Court. He had been acting queerly of late and it was thought his mind had become unbalanced.

THE Rt. Rev. T. U. Dudley quietly celebrated his twenty-first anniversary of his ordination to the Bishopric Tuesday morning at 10 o'clock at the Christ Church Cathedral, Louisville. After the service, which lasted about an hour, Bishop Dudley, as is his custom each year, invited the ministers present to lunch and spend the afternoon with him. Rev. D. D. Chapin was among the guests.

IT IS SAID that the Pillsbury mills at Minneapolis expect to grind 4,500,000 barrels of flour this year. The chances are that the other mills will each grind about as much. If they carry out their intentions the output of flour there will be about 14,000,000 barrels. Allowing four and a half bushels of wheat to a barrel of flour it would mean 63,000,000 bushels of wheat, which will take up a large part of the surplus of the spring wheat crop.

THE RIPLEY BEE says: "There have been many pleasant events at the Oddfellows' Temple within the past two years. None more pleasant than the annual banquet and installation of officers in Ripley Rebekah Lodge at its regular meeting on last Thursday evening. * * In response to a call, Miss Lizzie Schwartz, a charming young lady who is a member of the order in Maysville and was a visitor here, gave an interesting talk about the success of the order in that city and the kindly feelings entertained for the Ripley Rebekahs." "Griffith as Mephisto."

The Kansas City Times, of October 8th, says: "John Griffith is a young actor with a bright future. His interpretation of that difficult character, 'Mephisto,' is a work of art. He would not suffer by comparison with any actor who has ever tried to smile and smile and be the devil still. Griffith is a man who shows intelligence and study in all that he does, and this is shown in that he has decidedly improved since he was seen here last season in the same part. His voice is strong, elastic and wonderfully well fitted for the lines. His carriage on the stage is good, and there is really not a thing to which exceptions could be taken. Faust as presented by Mr. Griffith and a strong company, is a most finished performance. The company is well balanced, and the stage settings elaborate and beautiful."

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulence. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, sooting syrup and other hurtful agents down their throats, thereby sending them to premature graves."

EATEN BY CANNIBALS.

Terrible Fate Believed to Have Befallen a Party of Gold Prospectors.

HERMOSILLO, Mex., Jan. 30.—A terrible fate is believed to have befallen five gold prospectors who left here several weeks ago for the interior of Tiburon island, which is inhabited by the Seris tribe of cannibal Indians.

There were six members of the exploring party originally, but one of the men has arrived at a ranch near here in a half-starved condition, and reports that he and his companions came upon a village of Indians; that they were all taken captive, and preparations were being made to butcher them, when he escaped. He believes that all of the other members of the party were killed and their flesh eaten.

Killed For Not Leaving Town.

DURANGO, Colo., Jan. 30.—"Kid" Moore and George Bridges, who had been ordered by Marshal Thompson to leave town and did not go, were shot and killed in their shanty on the outskirts of the city by Thompson and Officer Fassbinder. As the officers refused to testify at the inquest, the coroner's jury returned a verdict that the men were killed by persons unknown. The officers claim they shot the men in self-defense, but as their victims never carried firearms other proceedings are likely to be taken.

Peculiar Case of Blood Poisoning.

KENTON, O., Jan. 30.—A rather peculiar case of blood poisoning is reported from Dunkirk. John Holderman, an exemplary young man who is in the employ of the Railway Stone Ballast company as bookkeeper, is the victim. The other day he pared his corns with a razor and shortly afterward was taken with excruciating pains. Blood poisoning set in and his death was announced last evening. The Knights of Pythias of this city will attend the funeral in a body.

The President Returns.

WASHINGTON, Jan. 30.—President Cleveland, accompanied by Dr. O'Reilly, reached Washington from his brief shooting trip to Quantico, on the Potomac river, about 9 o'clock last night. The return journey was made on the lighthouse tender Maple. Captain Lamerton of the tender joined the president in the sport, which took place just off Quantico, while Dr. O'Reilly remained on board. Thirteen ducks were the result of the day's sport.

Buckshot in the Back.

HOT SPRINGS, Ark., Jan. 30.—George Porter discovered Ernest Troy to be in the bedroom occupied by his stepdaughter, Gertie Armstrong and Lizzie Kellum, about 4 o'clock yesterday morning and demanded admittance. Troy attempted to escape by running out of the house and received a load of buckshot in his back as he reached the street, killing him instantly. Porter surrendered to the authorities.

Will Resume Work.

BETHLEHEM, Pa., Jan. 30.—Notices were posted last night that the Bethlehem Iron company's steel rail mill would resume operations next Monday, giving employment to a large number of men. The company is pushing work on government contracts. Four large turret plates for the battleship Oregon were shipped last night to the Union iron works at San Francisco.

Fitzsimmons Breaks His Trainer's Nose

EL PASO, Tex., Jan. 30.—While boxing with his trainer, Jack Stelzner, yesterday afternoon, Fitzsimmons landed with his left on Stelzner's nose and broke it. He claims that the punch was a very light one, but Stelzner is in the hospital for a few days.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

SULLIVAN ON A SPREE.

He Walks Off a Train, but Is Not Badly Hurt.

PEORIA, Ills., Jan. 30.—At Davenport Tuesday night John L. Sullivan went out after the performance and got drunk. On the Rock Island and Peoria railroad yesterday morning about 11:20 o'clock, between Lafayette and Galva, he walked off the rear platform. The train was stopped and men started to help him out of the ditch, where he was lying, but he threatened to fight any one who touched him, and he got up and walked to the train himself.

The train was backed to Lafayette and a surgeon called, who dressed his wounds, but he tore the bandages off. At Peoria another surgeon was called, but Sullivan would not allow him to touch him, and went away on another train. He was only slightly bruised and scratched.

ASSASSINATED IN HIS OFFICE.

HOUSTON, Jan. 30.—Thomas Dwyer, aged 76, wealthiest man in Washington county, was yesterday assassinated in his office by unknown parties, the motive being robbery. His body was found horribly mutilated in an underground cistern. He made a big cash sum Monday, but deposited all his money, and the murderers got nothing. There will be a lynching when the perpetrators are caught.

Chicago Dry Goods House Closed.

CHICAGO, Jan. 30.—The dry goods store of Fessenden & Hachbour was closed yesterday on account of the foreclosure of two chattel mortgages aggregating \$64,500. The liabilities will aggregate \$125,000 and the assets \$135,000. The heaviest creditor is the firm of Marshall Field & Company of this city which holds a mortgage of \$55,000 on the stock and fixtures.

Here's a Subject For Lynchers.

LITTLE ROCK, Jan. 30.—In Lee county, yesterday, T. P. Williams, a white man, attempted to force some information from Tom Edwards, an old and harmless negro. Edwards professed ignorance. Williams drew a pistol and killed the old negro in the presence of his family as he prayed for mercy.

FORT WORTH, Tex., Jan. 30.—An epidemic of spotted fever is raging in the convict camp near Rusk. Five convict guards died in one day and others have thrown up their jobs and fled. A number of convicts are down with the fever and it is feared the contagion will spread to the city of Rusk and surrounding country. People are greatly alarmed.

Republican Committee Called.

CANTON, O., Jan. 30.—Hon. J. M. Ickes of Newark, chairman of the state central committee, was in Canton yesterday evening, and said to an Associated Press reporter that he would call a meeting of the state central committee at Columbus on Saturday, Feb. 8, to fix the time and place for holding the Ohio Republican state convention.

Death of an Artist.

PHILADELPHIA, Jan. 30.—George Cochran Lambdin, the well known artist, died yesterday, aged 66 years. He was the eldest son of the late James Beid Lambdin, the distinguished portrait painter, and was born at Pittsburgh, Jan. 6, 1830, his maternal grandfather being George Cochran, a prominent merchant of that place.

Will Prevent the Fight.

CITY OF MEXICO, Jan. 30.—Secretary of the Interior Cozio has wired the state government of Chihuahua that no prize fight must be allowed at Juarez. Five hundred rurales (rural troops) will be sent there to prevent the fight.

Why Some Glasses Are Called Tumblers.

Every day we drink out of a tumbler. Why is the large glass that holds our milk and water so called? Years ago Professor Max Muller was giving a luncheon at All Souls' college, Oxford, to the Princess Alice, the wife of the Grand Duke of Hesse-Darmstadt and the second daughter of Queen Victoria. There were not a dozen guests besides the princess and her husband, and a very agreeable luncheon was had, with talk on all kinds of interesting subjects.

But what excited the curiosity of all strangers present was a set of little round bowls of silver, about the size of a large orange. They were brought round filled to the brim with the famous ale brewed in the college. These, we are told, were tumblers, and we were speedily shown how they came by their names—a fitting lesson for the guests of a philologist. When one of these little bowls was empty, it was placed upon the table mouth downward. Instantly, so perfect was its balance, it flew back to its proper position as if asking to be filled again. No matter how it was treated—trundled along the floors, balanced carefully on its side, dropped suddenly upon the soft, thick carpet—it rolled again and settled itself with a few gentle shakings and swayings into its place, like one of those india rubber tumbling dolls babies delight in.

This, then, was the origin of our word tumbler, at first made of silver, as are all these All Souls' tumblers. Then, when glass became common, the round glasses that stood on a flat base superseded the exquisitely balanced silver spheres and stole their names so successfully that you have to go to All Souls' to see the real thing.—Jewelers' Circular.

May Be Sent to Germany.

WASHINGTON, Jan. 30.—The name of Edwin F. Uhl, the assistant secretary of state, has been mentioned prominently in the gossip in regard to the appointment to the ambassadorship at Berlin. His intimate knowledge of all matters under diplomatic consideration with Germany would make his appointment eminently desirable.

Death of an Ex-Congressman.

TUSCARAWAS, Pa., Jan. 30.—Hon. John Jackson, a member of the Pennsylvania house of representatives in 1877-78, died at his home at LaGrange last night. He was a Democrat, a bachelor and one of the richest men in that vicinity. He was 85 years old and death was due to general breaking down.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

And everything I handle in the same proportion.

Don't let me be faced with the idea of being the best, and that my Perfection Flour has no equal for Bread or Cakes, manufactured for and sold exclusively by me; no other genuine.

My house is always headquarters for everything good to eat. Come in, everybody, whether you want to buy or not. You are always welcome. Goods delivered to all parts of the city.

BAD TIMES?

Well, we should say so. Those Clocks and Watches are too badly out of fix to be of any use. They've lost their time entirely. You'll lose your time, too, if you're unprovided with a good Clock. We've got a full supply of both, all accurate time-keepers and in perfect order. Better Watches than ours are not manufactured. Whatever the price of any watch we carry, it's the best of its kind and a full value. Get a timepiece; get the best: get ours.

J. BALLINGER,

MAYSVILLE.
